

## New ISM E-mail Feature Announcement!

UIA is pleased to announce the availability of company-wide e-mail footers for customers using the e-mail service on their Internet Security Manager!

With this feature you will be able to set up a message that will be attached to the end of all outgoing e-mails sent from your office. This message may include contact information, a company-wide e-mail disclaimer, or any other useful information that you would like to send to recipients of your company e-mail.

Unlike other e-mail footer solutions, this new feature allows you to set your e-mail footer in one location for all outgoing e-mail, rather than requiring you to set up each e-mail client on your network manually. In addition, your footer message will be attached to both plain and rich text (HTML) e-mails, ensuring that your message appears in any kind of e-mail that is sent out by your employees.

**E-Mail Footer Administration**

**E-mail Footer**

Enter your company wide e-mail footer below. This message will be attached to the end of all outgoing messages. If you don't want a footer, leave this field blank.

Dear John,

Here are the files that you requested.

Thanks,

Craig

If you already have mail enabled on your ISM, this feature is immediately available for your use. Simply log into your ISM, click on the Mail Admin tab, and then select User Administration. Then click Manage Company Wide E-mail Footer, and provide your mail footer on the next screen. When finished, click on Save Footer to make the e-mail footer active for all outgoing e-mail.

Should you have any questions regarding this feature, or if you would like to activate the e-mail feature on your ISM to make use of a company-wide e-mail footer, please contact your sales rep at **800.982.6898**.
